SUSTAINABLE CLOTHING

Taking a stride towards **a greener future** – our comprehensive range now includes sustainable options crafted from **Recycled Polyester and Cotton**. These garments are made from reclaimed materials, specifically sourced from pre- or post-consumer and pre- or post- industrial waste, including PET plastic bottles and discarded apparel.

By utilising materials that would otherwise end up in landfills, or incineration, we contribute to **environmental sustainability**.

The production of recycled polyester and cotton involves fewer processing stages, leading to a **reduced energy consumption during manufacturing**. This results in a significant decrease in carbon emissions compared to the production of virgin polyester and cotton. Choose our recycled garments for a **stylish and eco-friendly choice** that minimises the environmental impact.

IN-HOUSE BRANDING SOLUTIONS

Branding gives you the opportunity to take a great style and transform it in a way that improves your brand awareness.

Explore our host of in-house branding solutions to create the right look and feel for your brand; from the timeless appeal of Embroidery and classic charm of Screen Printing to vibrant Sublimation Printing.

For state-of-the-art, photo-realistic results, opt for Digital Transfer or consider our latest branding method; Silicone Transfer, for a premium upmarket finish.

WHY SHOULD YOU BRAND?

The essence of promotion is to make your mark on customers. Our apparel is designed to enhance your brand and leave a lasting impression.

TRADITIONAL BRANDING SOLUTIONS

EMBROIDERY

Embroidery is the art of decorating fabric with designs stitched in strands of thread. Embroidery machines are driven by computers that read digitised Embroidery files created by special software.

SCREEN PRINTING

Screen Printing is the process whereby a logo is transferred onto a garment via a mesh screen. This method provides excellent coverage and is especially good for large and bold logos. Colours are printed one at a time, so accurate registration is essential.

SUBLIMATION PRINTING

A full-colour digital image is printed onto specialised paper using specialised inks. The paper is firmly adhered to the garment surface and when heat is applied to the image on the paper by way of a heat press machine, the ink on the paper is transformed from a solid to gaseous state, infusing with the fibres of the garment.

“The greatest threat to **our planet** is the belief that someone else will **save it**. ”

Robert Swan

STATE-OF-THE-ART BRANDING SOLUTIONS

DIGITAL TRANSFER ON CLOTHING

Digital Transfer on Clothing is a process by which a digital image is printed onto specialised transfer paper. The transfer is then applied to the garment using a heat press process. Specialised digital printing machines use liquid ink instead of toner ink to ensure long-lasting flexibility and durability of your logo. This process, using state-of-the-art technology, creates vibrant, photo-realistic results and is the perfect choice for fine detail and full colour logos.

OUT-OF-THE BOX BRANDING SOLUTIONS

DEBOSSING

A logo is pressed into the surface of a garment using heat and pressure to create a permanent stamped impression. This branding process is both subtle and classy, resulting in a unique tone-on-tone look and is a great choice for waterproof garments.

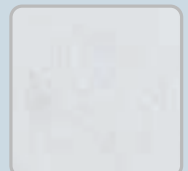

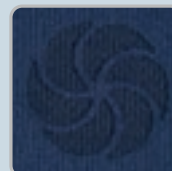

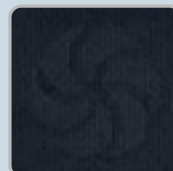

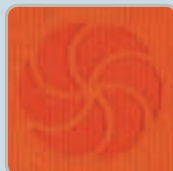

LASER ETCHING

Using an advanced laser, the dye from the material surface is removed from a garment by way of a Laser Etching technique, creating a modern tone-on-tone look which cannot be replicated by any other process.

As depicted below, the result and clarity of laser may vary depending on the colour, style and material of the garment. To illustrate the variance, we branded the same logo on 7 different colours of the same garment.

Given the less-than-desirable outcome (as seen on the 3 swatches below) we do not offer Laser Etching on certain garment colours.

SILICONE TRANSFER +

A cutting-edge branding method designed to elevate your branded apparel and headwear to new heights!

This branding process moulds liquid silicone to the shape of your logo or emblem to create a 3D, raised and flexible print, that is durable and tactile, making it ideal for corporate uniforms, team kits, headwear and more!

The raised texture of the print produces a premium, upmarket finish.

This branding method is ideal for solid logos, ensuring excellent detailing on emblems and / or badges, while leaving a lasting tactile impression that sets your branded corporate and promotional apparel apart.

SILICONE TRANSFER IS AVAILABLE IN THE 16 COLOURS BELOW:

Please Note: The 16 available colours for Silicone Transfer are the closest possible matches to the Pantone values below, though variations may occur.

OUTDOOR APPAREL

BUILT TO ENDURE. DESIGNED TO EXPLORE.

Urban Terrain was born from a deep respect for nature's extremes and the fast-paced demands of everyday life. Our apparel is made for those who move between both - one foot in the wild, the other on city ground.

Whether you're navigating dense bushveld, casting lines at first light, or heading straight into a meeting or social event, Urban Terrain moves with you. It's performance apparel made to move seamlessly between wild terrain and urban streets - built for versatility, wherever life takes you.

Our lightweight, breathable tees are perfect for hikes, hands-on work, or everyday wear. Our refined golf shirts, on the other hand, transition effortlessly between untamed terrain and urban occasions - ideal for those who want to look sharp without giving up function.

Our shirts deliver structure and flexibility - tough

enough for the outdoors, breathable for long days, and polished enough for a team meeting or post-hike hangout. Our pants and shorts are built for resilience and ease, with performance fabrics and smart design features that keep you agile and ready for whatever comes next.

When the elements turn, our outerwear rises to meet the moment. From warmth-locking hoodies to storm-defying jackets, every layer is engineered to protect without holding you back - whether you're bracing against mountain winds or city downpours.

Urban Terrain sets a new standard - where rugged performance meets refined style. This is gear built to go the distance and look the part, no matter the setting.

It's made for those who forge their own path - because true adventure isn't just about the journey, it's about the impact you leave behind.
