ACCESSORIES 74-85

3D

Classic, all-time favourite. A combination of highly detailed photographic images, super-imposed on a painted background, which results in a highly effective camouflage. The Mopane leaves, pods and thorns of the Camel Thorn trees speak of hunting in Africa. Still the most popular design, copied by many, Perfected by Sniper Africa.

PIXELATE

The PIXELATE camo range has a micro breakup pattern that conceals form during close stalks and a macro pattern which minimizes blobbing and form recognition at longer distances. The colours within the Pixelate pattern have been carefully selected to blend in, whether the terrain is green or dry, dense bush-veld, or open plains.
